

XCMG Truck Crane

XCMG STORY

XCMG RECONDITIONED MACHINE

XCMG reconditioned machine is the second-hand machine program launched by XCMG for the post market. XCMG takes advantage of its dealers network to collect the second-hand XCMG machine that falls into strict standards: good condition, full function and low service hours. The returned machine is then disassembled, repaired, painted, rebuilt and tested officially by XCMG, and the product life is therefore extended. The price of XCMG reconditioned machine is far lower than that of the new one, but its performance and safety are not compromised thanks to XCMG's state-of-the-art processes and technologies. In order to dispel customers' concerns, XCMG establishes a strict evaluation system for reconditioned machines and invites SGS to issue third-party certification.

OUR TEAM

150+ SPECIALISTS

150+ specialists participate in the reconditioning process.

Inspection Team
Certified professional inspectors who have worked for more than 10 years conduct comprehensive analysis on the machine.

Reconditioning and Repairing Team
Replace worn parts to restore machine. Replace all worn parts with genuine XCMG new ones.

Issuing Report Team
Certified external experts test and confirm the reconditioned machine. SGS issues the third-party inspection certificate.

RECONDITION PROCESSES

RECONDITION PROCESSES OF THE USED

We maintain a meticulous and rigorous attitude toward quality, focusing on extraordinary creativity, elaborate designs and exquisite craftsmanship.

COLLECTION

Examine the working condition, collect data and do basic assessment on the machine. Only machines with 10% depreciation, low working hours and full functions can be collected.

INSPECTION

Certified professional inspectors who have worked for more than 10 years conduct comprehensive analysis on the machine. Wear and tear details are checked and compared to XCMG standard. Inscriptions shall then checked.

RECONDITIONING AND REPAIRING

Replace worn parts to restore machine. Replace all worn parts with genuine XCMG new ones.

TESTING

Follow the test procedure, ensure the performance and reliability of the machine. Reconditioned products are returned to step 3.

READY FOR DELIVERY

Ready for Delivery!

ISSUING REPORT

Certified master inspectors test and confirm the reconditioned machine. SGS provides the third-party inspection certificate.

PAINTING

The whole machine is repainted to restore its appearance, bright as new.
